Application **SakhCoin™ (SAKH)** are truly endless. This loyalty program is designed to revive the economy of the Sakhalin region in the shortest possible time. The use of this model in just a few months can achieve a multiple increase in profits.

Little history. *Johann Silvio Gesell* was Born in Germany in the 19th century. Do business. His work was applied in different areas of the globe. The biggest experiment took place in a small village with a population of several thousand people. After 1 year of using this business model, the decadent post-war economy was completely lifted. Everything was built and developed. The mayors of the areas I wanted to adopt these practices in their cities. Seeing the threat on the issue of money, the Central Bank made an appeal to the court. In posledstvii are all destroyed and banned.

Currently, there are several directions. Time dollars (Payment for 1 hour), specialists of different professions exchange their time. Money Lemeridien ( payment for a simple railway wagons). In the Russian Federation is currently used in a couple areas, the head of the Moscow village of Kalinovo, Mikhail Shlyapnikov put into circulation its own currency, [Kolion \( KLN \)](#). The goal is simple-to increase working capital and direct it to useful and necessary projects. Currently exists in cryptographic form.

In the village Shaymuratovo in Bashkiria, the entrepreneur Artur Nurgaliyev, the head of the Agricultural enterprise has applied this model to save the economy after the drought of 2011. The Supreme Court of Bashkiria Legalized **Shaimuratiki**.

**SakhCoin™ (SAKH)** is an advanced financial instrument which aims to multiply the profits of enterprises and organizations. It is **NOT** A monetary surrogate and does not fall under the legislation of the Russian Federation on the Issue of funds. **Do NOT** have the function of accumulation. Is a support tool economici. **Cryptographic, food, commodity coupons are not prohibited by the Russian legislation.**

Any goods and services can be paid for with sakhcoin Cryptographic Coupons.

**Alcoholic beverages are not released !!!**

**Natural payment of Alcoholic beverages is prohibited by Federal law and are released for Rubles.**

## What is Sakhtoshi?

Each **SakhCoin™** (1 SAKH) is divided up to 8 decimal places.

That is 1 SAKH consists of 100 000 000 ( one Hundred million parts).

This makes it possible to use a more accurate tool.

Each **SakhCoin™** unit (0.00000001 SAKH) of Sakhtoshi is called. Sakhtoshi is the smallest part of **SakhCoin™** . Satoshi Nakamoto is the Creator of the eponymous Bitcoin payment system, hence the name. To simplify the account, the minimum unit **SakhCoin™** named ( Sakhtoshi ) local counterpart appropriate in meaning and spelling. There are also intermediate units . See the full table Below for values.

### Table of values Sakhtoshi → SAKH

1 Sakhtoshi	= 0.00000001 SAKH	
10 Sakhoshi	= 0.00000010 SAKH	
100 Sakhtoshi	= 0.00000100 SAKH	= 1 μSAKH
1 000 Sakhtoshi	= 0.00001000 SAKH	
10 000 Sakhtoshi	= 0.00010000 SAKH	
100 000 Sakhtoshi	= 0.00100000 SAKH	= 1 mSAKH
1 000 000 Sakhtoshi	= 0.01000000 SAKH	= 1 cSAKH
10 000 000 Sakhtoshi	= 0.10000000 SAKH	
100 000 000 Sakhtoshi	= 1.00000000 SAKH	

### What is 1 mSAKH и 1 μSAKH ?

It's pretty simple:

$$0.00100000 \text{ SAKH} = 1 \text{ mSAKH} = 1000 \mu\text{SAKH}$$

$$0.00010000 \text{ SAKH} = 0.1 \text{ mSAKH} = 100 \mu\text{SAKH}$$

$$0.00001000 \text{ SAKH} = 0.01 \text{ mSAKH} = 10 \mu\text{SAKH}$$

$$0.00000100 \text{ SAKH} = 0.001 \text{ mSAKH} = 1 \mu\text{SAKH}$$

$$0.00000001 \text{ SAKH} = 0.0001 \text{ mSAKH} = 0.01 \mu\text{SAKH}$$

1 Sakhtoshi is the most minimal part of the cryptocurrency SakhCoin,  
equal to 0.00000001 Sakhtoshi

## What are the advantages of cryptocurrencies as opposed to conventional money?

There are many Advantages, but we will name the main ones:

Anonymity of transactions — there is no information about the owner of the crypto-wallet (there is only the wallet number)

Decentralized nature, lack of a single digital regulator, lack of control over transactions and payments

Security: it cannot be copied.

And the main advantage is that in the near future cryptocurrencies will replace us with ordinary money, and will be taken into account for any goods and services around the world.

**Starting from January 1, 2020, SakhCoin™ (SAKH)** depreciates by 4% every 365 days. To ensure cryptographic turnover coupons **SakhCoin™ (SAKH)**. Eliminates and accumulation-calving mobility problems criptografica coupons in the hands of individuals and legal entities. The turnover increases many times. Turnover increases exponentially.

So consider an example. For example, a product costs ₺ 1000. When paying **SakhCoin™ (SAKH)** discount for example 10%, it is 100 **SakhCoin™ (SAKH)**. So the buyer pays ₺ 900 rubles and 100 **SakhCoin™ (SAKH)**.

As a result, the Buyer is happy to discount 10% , and the Seller sold the goods. Since later the buyer will be shopping in stores that will accept cryptographic commodity coupons, there will be a constant increase in profits due to the constant turnover of cryptographic commodity coupons.

**SakhCoin™ (SAKH)** Site: <http://sakhco.in/> Support: [support@sakhco.in](mailto:support@sakhco.in)

The logo for SakhCoin™ (SAKH) features the word "SAKHCOIN" in a bold, sans-serif font. The letter "O" is replaced by a stylized sun or gear icon with a central circle and radiating lines.
